Verified key content

- Tablas Creek 2025: total sales up about 2%; wholesale up 15%; direct-to-consumer down 1%; exports down 39%; tasting-room traffic down 3.3% (about 900 fewer guests).
- Haas: "To be up 2% in 2025 something I'm truly proud of."
- Industry figures cited: US DTC wine sales down 15% in volume in 2025; US wine exports "declined 33.5% in 2025", a loss exceeding \$428 million.
- Why we saved it: the best named outcome case for an alternative-variety, DTC-heavy winery holding roughly flat against a falling channel; confounded by brand and model, and not Sonoma.
